

**OXO** GROUP Srl

Brief company presentation

OXI (Bologna, Italy) was founded more than 50 years ago, in 1974, and integrated in 2009 the company Grafos (Formigine, Italy), by establishing OXI Group Srl.

With an annual turnover of **9 MM Euro OXI Group** is the **Italian #1 leader** for the production of

- Industrial keyboards (adhesive, with mechanical buttons, FR4 printed circuit boards, made of aluminum, rubber, inox, polyester, backlighted and with resistive or capacitive touch screen)
- Labels and front panels
- Aluminum panels

Currently, the production is divided in two locations, Granarolo (BO) and Formigine (MO), with overall **90 employees** on a **surface of 3500 sqm.**

The **research & development department** is located in Formigine (MO), where a pool of engineers works on innovative solutions for touch screens. A clean-room for the production of capacitive touch screens, a Votsch climatic chamber for the accomplishment of thermic and humidity tests, as well as special apparatus for trial runs complete our center.

We can count on **12 automatic and semi-automatic screen printing machine** and an extensive train of machineries, including **CNC systems**, for mechanical processing. The company recently renewed the **digital printing machineries**, which now boosts 6 highly innovative machines that can cover dimensions up to a length of 2.500 mm. It is also possible to print with 'green' colors as the company decided to grant major attention to **environmental friendly** products.

Our clients come from all industrial sectors, however we are specialized in the area of

- Vending machines and equipment
- Wellness/Fitness
- Automotive
- Household items
- Medical appliances

For our top clients we activated smooth and flexible production procedures and manage their products with KANBAN system, according to the agreements.

**Among our top customers we have**

N&W Global Vending	Saeco-Philips
Technogym	Marposs
ALI Group	Cefla Group
Bosch	Electrolux
