

***«All the things was born by an idea ,  
we create what you see tomorrow»***

*(Maria Elena Alabiso)*

New Technology.  
First Innovation.  
Client Focus.

**NC CONSTRUCTION** was born in 2010 following an idea by professional team about Industrial Automation due to give an answer for worldwide market, solutions and innovation services and customized solutions about technology in industrial automation.

### **MISSION**

We offer assistance and consultancy from the beginning of project to after sale, we give a support to Client, giving better solution and proposing ideal model customized about Client needs.

«They carried out maintenance on all our production lines with high professional service and reliability. Technical staff is very available and qualified».

«It's a Company reliable and efficient in every work. Our needs were satisfied quickly: from maintenance to emergency work».

«They carried out construction works after earthquake on our production site with great professionalism and competence and now, they are our Supplier for many activity».

# CLIENT

NC Construction is specialized in the planning and development of engineering technology, **“turnkey systems”** and **custom solutions** and provides its customers with **specialist consultancy** services in the field of Industrial Automation.

**Innovation**, customized **solution**, on-going **support**, **high quality** standard of products are the reason why our clients choose us and reward us with their loyalty over the years.

# SERVICE

The Company is composed by distinct offices, which operate in synergy, to follow with greatest care all stages of development: from the **consulting** phase - to the **design** verification – to **after-sales assistance**. Dedicated specialists for each step collaborate to put your know-how, service and technical expertise necessary to offer the **exclusive solutions** for a total customer satisfaction.

The continuous training of our staff allow us to promote the **culture sector**, because we think it is an effective way to show the best technical and economical choice of what is proposed.

## CONSULTING

Technical meeting  
Inspection | Data collection

## DESIGN

Feasibility Study | Project & Engineering | Risk Anaysis

## IMPLEMENTATION

Prototyping | Testing | Installation | Documentation

## AFTER SALE

Training | Manteinance | Upgrade

# APPLICATION FIELDS

## AUTOMOTIVE

- Special equipment
- Industrial Automation Lines.

## MECHATRONICS

- Automation
- Conveyor system

## STEELWORK SECTOR

- Steel Structures
- Structure reinforced
- Post-earthquake reconstruction

## THERMAL ENGINEERING

- Pipes
- Tanks dryer

# AUTOMOTIVE

- Design, construction and assembly of **prototypes**.
- **Special equipment** that allow high accuracy positioning and measurements.
- Design and construction of engine holder trolleys and customized trolleys, for every use along production chain.
- **Innovation**: trolley with electric motor to assist the push.

# MECHATRONICS

- Semi-automatic lines formed by rollers controlled and by Programmable Logic Control (**PLC**).
- Overhead conveyor system, of automation and lifting system.
- Automatic prototypes to be used along industrial process.
- Design application packages of **software** and **hardware**.

# STEEL-WORK SECTOR

- Design, construction and installation of **carpentry elements** and **metallic structures** in general, according to UNI EN 1090-1/2, SOA OS18-A).
- Steel structure to support bridge cranes.
- Post earthquake reconstruction, additional steel reinforcements.
- Construction of civil, industrial and agricultural building .

# THERMAL ENGINEERING

- Construction of piping system application.
- Reinforcing for pipes, installation of shut-off valves.
- All works and welds are performed according to **UNI EN ISO 3834-2:2006, EN1090-1** e SOA OG 6 e OS18-A.

# CERTIFICATION & ATTESTATIONS

società attestata da  
**SOA RINA**

**SOA CAT. OS18-A**

**SOA CAT. OG6**

- Structural metal components.
- Water, oil and gas pipeline.

Member of CISQ Federation

**RINA**

**ISO 9001-3834-2**  
Certified Integrated Systems

**UNI EN ISO 9001**

**UNI EN ISO 3834-2**

- Quality management system.
- Quality requirements for fusion welding of metallic materials

Organismo notificato n.0474

**RINA**

**EN 1090-1 Strutture Metalliche**  
Controllo della Produzione in Fabbrica  
(FPC) Certificato

**EN 1090-1/2**

- Requirements for conformity assessment for structural components (**CE-Marking**).

**UNI EN ISO 27001**

- Data security management, certified by VW group.

# CERTIFICATION & ATTESTATIONS

## PARTNER

- Ducati Official Supplier.

## MEMBERSHIP

- Associated with Confindustria Emilia.
