

Trusted partner for your
Digital Journey

Atos

At Atos, our mission is to help design the future of the information technology space

Our services and expertise, multiculturally delivered, support the advance of knowledge, education and science and contribute to the development of scientific and technological excellence.

Across the world, we enable our customers, employees and as many people as possible to live, work and develop sustainably and confidently in the information technology space.

Responsible innovation for a digital world

Care

We care about enabling organizations to embrace technologies to improve their performance, enhance their customers and employees experience, and ensure their success.

Believe

We believe in a path along the digital transformation journey that helps navigate the technical, ethical and social dilemmas to create outcomes that respect people, social expectations, and the environment.

Passion

We have endless passion for innovation - not for its own sake, but to help our customers thrive and excel in a responsible and sustainable context.

Trust

We are inspired by earning and maintaining the ongoing trust of our customers, partners and employees, with the goal of sustaining long-term relationships.

Delivering worldwide

We have an outstanding global profile.

€11 billion annual revenue

110,000 experts

73 countries

Recognized leader in

HPC
cybersecurity
IoT
cloud / hybrid cloud
digital workplace
quantum simulation

Alliances

Atos has strong relationships with technological and industrial leaders including Dell/EMC, Google Cloud, Siemens and Worldline

Worldwide IT Partner of the Olympic and Paralympic Games

Atos leads the technology effort for the staging of the Olympic Games. This same effort and skill-base can help your company, as you pursue record-breaking competitive advantage.

Focusing on industries

We are developing our seven industry sectors by building centers of excellence based on our vertical competencies, recruiting additional industry experts and developing new industry-specific partnerships.

Pioneering sustainable digital transformation

The foundation of our digital value proposition

Divisions

Infrastructure & Data Management

We transform today's IT landscapes to future hybrid IT environments.

Business & Platform Solutions

We transform strategic approaches to technology, combining innovative solutions with established ones.

Big Data & Cybersecurity

We create competitive advantage for our clients from Big Data, and ensure data is delivered safely and securely to the right parties.

Unified Communication & Collaboration

We combine voice, data and video, to help our customers benefit from a unique collaboration experience.

Transforming through innovation

We have gathered our best scientists, engineers and innovators into two communities - The Scientific and Expert communities. These groups drive the organization forward, delivering cutting edge thought leadership and advising on the technologies of tomorrow.

R&D labs

Our emerging research covers a full range of the most innovative topics including data intelligence, IoT, cybersecurity and high performance computing.

On the race to exascale

By 2020, our BullSequana supercomputer will reach exaflop level and will be able to process a billion billion operations per second.

Atos quantum program

We anticipate the future of quantum computing and will be prepared for the opportunities and also the risks that come with it.

Bringing innovation to you

In our Business Technology and Innovation Centers, we invite our clients to join us to discuss ideas during innovation workshops, co-innovate and find tangible solutions for your needs.

A global leader in Corporate Social Responsibility
