

# Hooking Equipment Products

Monti Engineering è all'avanguardia nella progettazione e costruzione di sistemi di aggancio per gli impianti di ossidazione ed elettrocolorazione dell'alluminio.

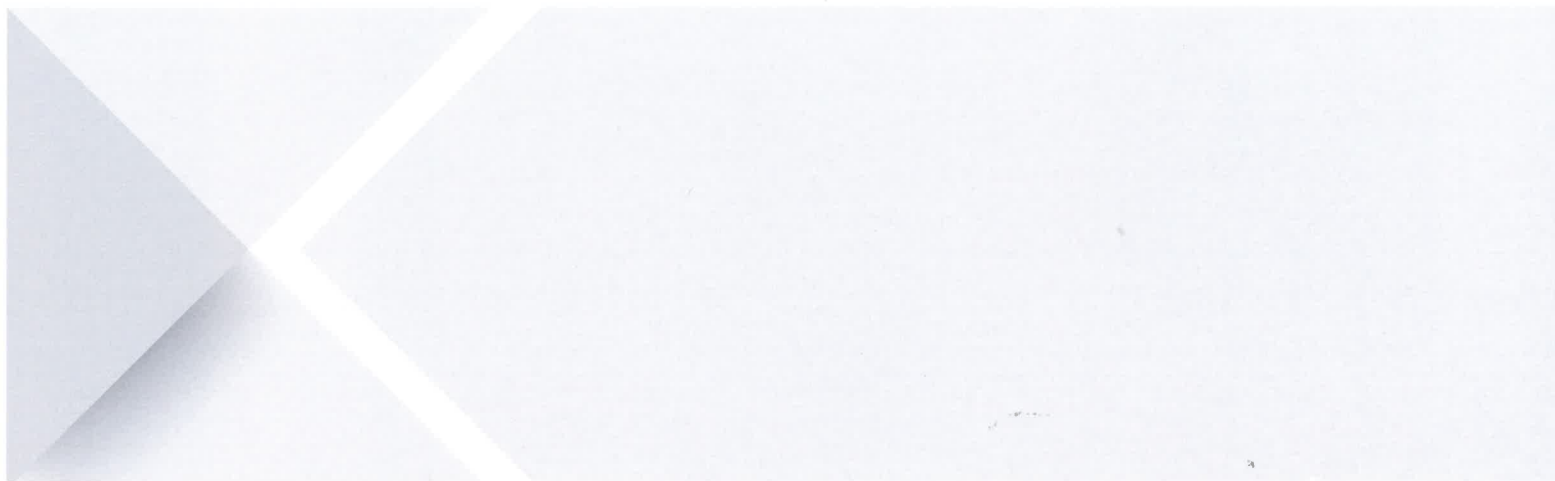

Fornisce inoltre una vasta gamma di prodotti di consumo, strumenti ed accessori per il trattamento superficiale dell'alluminio.

Vi presentiamo gli articoli principali della nostra produzione e mettiamo a disposizione la nostra esperienza e competenza per studiare soluzioni specifiche per ogni tipo di pezzo da agganciare.

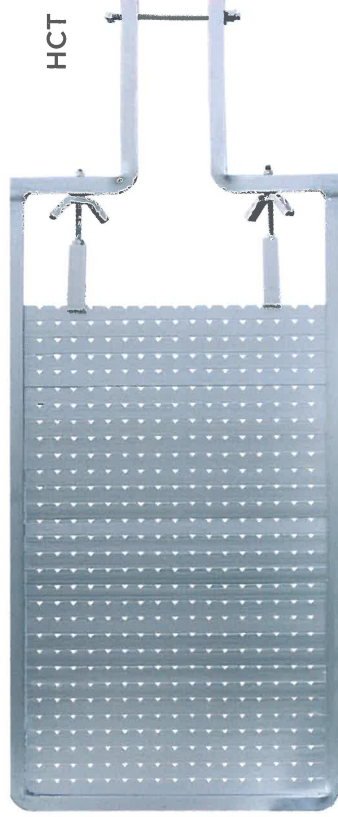

Monti Engineering is a company which is in the forefront in the design and manufacture of hooking equipment for anodizing and electrocolouring plants.

Besides it supplies a wide range of expandable products, instruments and accessories for aluminium surface treatment.

We present you the main articles of our production and we offer you our experience and competence in order to study specific solution for every kind of piece to be hooked.
