

**FABBRIGROUP**  
The evolution of freshness

# Worldwide leader in Food Packaging

## COMPANY PROFILE

## Machines

Automatic small footprint wrappers  
and weigh price label system  
for retail and small/medium packaging centers

Automatic high productivity wrappers  
for industry and packaging centers

Manual or (semi)automatic tray-sealers  
and complete lines for retail and industry

## Films

Plain and printed traditional stretch films

Plain and printed biobased and compostable stretch films

Traditional and compostable barrier films

## Service & Spares

Widespread  
maintenance & service assistance  
Spare parts

- **Solution-oriented, integrated offer** for food packaging (*machines & automated lines, films, software, service, spare parts*)
- **Technology-focused business model** with deeply-rooted innovation and R&D culture
- **Other services** (*packaging consulting, personalised tests, printed film graphic service, technical trainings...*)
- Development of **safe & innovative solutions** with a **minimised environmental impact**

# Italian food-packaging quality, available all over the globe

- **Italian industrial excellence** for more than **70 years**

- **European-based Group active worldwide**

- **4 production plants**
  - 2 machine plants (*Vignola - Modena IT, Palazzolo s/O - Brescia IT*)
  - 2 film plants (*Vignola - Modena IT, Muzzano CH*)

- **4 Italian seats for commercial and technical assistance**  
*Vignola (Modena), Milano, Palazzolo S/O (Brescia), Roma*

- **5 European subsidiaries for commercial & technical assistance**  
*Switzerland, France, Germany, UK, Russia*

- Represented in more than **90 countries** in the world by a network of more than **100 Authorized Dealers & Service Centers**

## The Group in figures

**500**

Approx. 500 **employees**

**25**

25 **extruders** for film production

**120**

Annual 2022 **turnover 120 M€**

**100%**

100% **recycling** during traditional and biobased film production (>99% internal, the rest via external partners)

**35,000**

More than 35,000 **machines installed** on a global basis

**5%**

Around 5% of annual turnover invested in **R&D**

**22,000**

More than 22,000 **t of film** produced/year

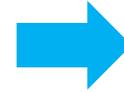

**130**

More than 130 **patents** granted in **different countries worldwide**

## Fabbri Group's focus on major market trends

- ✓ **Fresh and healthy** food
- ✓ Enhance food **preservation**
- ✓ **Reduce waste**
- ✓ Continued drive for more **innovative packaging solutions**
- ✓ Move to **smaller, lighter packages**
- ✓ Interest in **alternative, eco-friendly packaging options**
- ✓ Demand for **higher throughput machinery**

## Key Customer Demands fulfilled by Fabbri Group

- ✓ **Sustainable** packaging solutions
- ✓ **Top-level** food protection
- ✓ **Flexibility**
- ✓ Extended food **shelf-life**
- ✓ Tracked record of service **reliability**
- ✓ **Perfect fit** into production area
- ✓ **High productivity, top safety**
- ✓ Machine **durability**
- ✓ **Ease of operation** due to frequent staff turnover
- ✓ **Minimized film waste**

# The daily choice of a large, diverse and loyal Customer base

- Fabbri Group supports **retailers, brand owners, food processors and packagers**
- Fabbri provides packaging solutions for **all food sectors**: fruit & veg, meat, fish, cheese, vegetable and alternative proteins, fresh pasta, delicatessen...

**Fabbri Group advises and supports  
2,500+ companies worldwide**

**NatureFresh**  
CERTIFIED COMPOSTABLE CLING FILM

**BIOBASED  
STAR  
FILM**

**KOEX**

**FUNGUSTAR**

**PEX**

**PEXY**

- **Traditional films, in plain or printed form**
- Nature Fresh: cling film certified for **Home & Industrial compostability**
- Biobased Star Film: certified **biobased** stretch film

**NatureLid**  
CERTIFIED COMPOSTABLE BARRIER LID FILM

- PELid: **plain barrier** films for MAP packaging
- Nature Lid: **standard and high barrier** film certified for **Industrial compostability**

ELIXA 14

ELIXA 21

ELIXA 24

ELIXA 35

ELIXA 30<sup>+</sup>

- About **23,000** machines installed worldwide
- **5 different models**, also for large tray formats (from **14 to 35 packs/minute**)
- Ideal for **retailers** and **small/medium packaging centers**
- **Patented** and **sustainable super-stretch** Elix<sup>®</sup> technology
- **Supporting the transition to compostable packaging** in their “**Fabbri Hybrid**” version, able to use traditional, biobased and compostable films according to specific market needs

- Integrated solutions for **weighing, pricing, wrapping, labelling**
- **3 different models**, also for large tray formats (from **22 to 32** packs/minute)
- Ideal for **retailers** and **small/medium packaging centers**
- **Patented** and **sustainable super-stretch** Elixa® technology
- **Supporting the transition to compostable packaging** in their “**Fabbri Hybrid**” version, able to use traditional, biobased and compostable films according to specific market needs

- **Proprietary** service software for integrated stretch equipment
- Specially developed for **single or centralized** weighing systems and labelling systems management
- Able to manage entire systems, made up of **multiple workstations**, also located in **different points of sale**
- **Customizable** according to customer requests

## Portfolio - High productivity stretch equipment

**automac 40**

**automac 55** *Plus*

**automac 75**

**automac 95**

**automac Dual**

**automac Industrial**

**automac Ultra**

- About **6,500** machines installed worldwide
- **7 different models** (from **28 to 90** packs/minute)
- Ideal for packaging in medium/large-sized **packaging centers** and **industry**
- **Supporting the transition to compostable packaging** in their “**Fabbri Hybrid**” version, able to use traditional, biobased and compostable films according to specific market needs

## Portfolio - Automatic and semi-automatic tray-sealers

**LARI**

**YPSILON**

**MAGIC 2.0**

**Top  
Lid**

**TRIOplus**

**GAMMA**

- **40 years** of market presence in a **leading position**
- **Automatic and semi-automatic** MAP and SKIN tray-sealers, **manual** tray-sealers and alu-seaming machines
- More than **1,000 machines** installed worldwide
- Ideal for **industrial** and **large retail packaging centers**
- Able to use trays in all most **sustainable materials** available on the market

- **Complete customized lines** for preparing and packaging (MAP, SKIN) different kinds of food products, such as pasta & ready meals, sauces & gravies, fruit & vegetables, burgers, solid and semi-solid dairy products, lasagna & cannelloni, pizza & focaccia, olives & pickled vegetables, desserts and sweets
- In addition to automatic industrial tray-sealers of various sizes and speeds, the Fabbri lines can be equipped with automatic systems for **tray unstacking, feeding, dosing, loading, product forming and filling** etc.
- Ideal for **industrial** and **large retail packaging centers**
- Able to use trays in all most **sustainable materials** available on the market

*Gruppo Fabbri Vignola S.p.A.*
- **ISO 45001:2018 - Occupational Health and Safety Management System**  
*Gruppo Fabbri Vignola S.p.A.*

# Voluntary product certifications

MTIC INTERCERT Certification for Automac stretch wrapping machines and for TopLid, XPEED 1, XPEED 3 tray-sealing models

TopLid XPEED

TÜV SÜD certification for Elixia stretch wrapping machines

ELIXIA

BRC certification for films produced in the Muzzano (CH) plant

NatureFresh  
CERTIFIED COMPOSTABLE CLING FILM

Industrial and domestic compostability certifications for Nature Fresh bioplastic film

“OK-biobased®” certification for BIOBASED STAR FILM bioplastic film

Recyclability certification for PE-based film PEXY

PEXY

## Preserve without waste: our sustainability commitment for People and Nature

Fabbris Group recognises and protects the **value of resources** by developing the most sustainable food packaging solutions in the different materials required by the market, among which **compostable and biobased films**.

### We have built different partnerships in favor of Sustainability and the Environment:

- *Legambiente* (Italian biggest environmentalist association)
- *National Packaging Consortiums, National Consortiums for collection, recycling, recovery of plastic packaging, National Consortiums for organic recycling of biodegradable and compostable plastic packaging*
- *Operation Clean Sweep® (OCS) Programme*
- *Treedom* for the “Aurea Silva - Fabbri 4 Planet” reforestation project
- *3Bee* for the “Bee Way - Fabbri 4 Planet” bee protection project
- *LifeGate* for the “Zero Impact Web” internet project

### We support local environment-friendly and social projects through:

- Donations
- Communications (conferences, events, speeches, etc.) to educate and encourage the care for Sustainability and individuals

### We develop environmentally-friendly products according to the major international Innovation criteria:

The Nature Fresh project by Fabbri Group has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No. 869301. **Info: [naturefresh.eu](https://naturefresh.eu)**
