Creating digital products that impact
people's lives and lead business growth

At Mumble, we create, design and develop **complex high-end** and **easy-to-use** digital products for tech company and outstanding organizations worldwide.

©2024

ABOUT (1 di 3)

Design and develop digital tools that impact people's lives.

We help our clients and partners come up with the best possible solution to address their needs, working alongside them to turn their dreams into specs, and specs into user-friendly, great looking, highly reliable digital tools.

Our pillars

Our scope is to deliver tailor-made, high-quality digital tool faster. To keep this promise, we constantly invest in three main pillars: **people**, **operation**, and **company**.

PEOPLE

We constantly work on program that allow us to attract, retain and continuously train digital talents.

ENVIRONMENT | WORK-LIFE BALANCE | EDUCATION PROGRAM | WELFARE POLICY

OPERATION

Well-organized operations and scalable tools enable us to release higher quality, more secure digital product faster.

TECHNOLOGY (TOOLS AND PACKAGE) | PROCESS

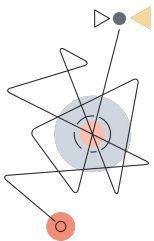

COMPANY

Vision, mission and company values guide our attitudes and daily choices

COMPANY CULTURE | SUSTAINABILITY

ABOUT

Our services

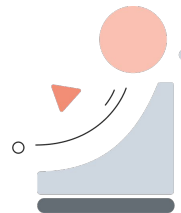

PRODUCT DESIGN

We create easy-to-use and beautiful interfaces, simplifying people's lives and reaching customers' goals. We follow design principles and take care of the entire flow of user experience, leaving nothing to chance.

ENGINEERING

We develop secure, scalable, and accessible web and mobile app. We follow the design guidelines with the greatest knowledge of the technological constraints. Our veteran team has faced all kinds of challenges, allowing us to ensure the highest customization.

LUNCH & GROW

The launch is just the starting point: we have some experience with digital products and know that they constantly need to be improved and evolved. Our flexible, agile process allows us to improve your product data-driven.

NO BULLSHIT POLICY

Development code will be available to the customer from day 1 for inspections, reviews, external audits, or third-party activities.

In addition, the project's progress will be constantly monitored by our Project Manager, who will immediately notify the customer in case the development times change.

No Customer lock-in policy: No binding contract; free to leave the Mumble Team and continue with another supplier.

TRENTODOC

STORIES THAT INSPIRES

Trento Doc mobile App

The Trento DOC App, made for wine lovers and travelers, will guide you through the discovery of Trento Doc sparkling wine from Trentino and all its producers, with suggestions regarding the guided tours to wineries, the labels, the territory and the gastronomical, natural and cultural sites. **The mobile app allows you to stay update on the events and tastings**, also online, organized by the Trento Doc institute, which handles promoting collective label.

Itinerario consigliato da Abate Nero

La Val di Fassa ospita anche per il 2020 l'edizione invernale di "Trentodoc sulle Dolomiti", evento in programma dal 19 al 23 febbraio dedicato alla scoperta delle bollicine di montagna nello scenario naturale delle Dolomiti.

La manifestazione, che prevede 20 appuntamenti, offre l'opportunità di approfondire il metodo classico trentino in un suggestivo contesto innevato, tra rifugi, malghe, hotel, ristoranti ed enoteche.

TELEGRAM BOT

We developed a Telegram BOT for Gruppo Ceramico to **streamline communication between sales teams and the company**. This tool provides real-time access to production, warehouse, and customer data, **enabling timely responses without needing to contact headquarters**. The BOT features commands for checking stock, retrieving customer information, and placing orders, enhancing efficiency and user experience with minimal training.

Customized Tile Design with Pixel41 Web Configurator

We created a web configurator for 41zero42's Pixel41 collection, enabling users to design custom tile patterns with real-time visualization. The tool offers 20 repeatable models and various color options, simplifying the design process for both customers and resellers. This innovative solution **enhances customer experience, streamlines the ordering process**, and supports the company's creative goals in the ceramic industry.
