Country	Company_Name	Sito_web	Main activity	Sector	What specific product(s), technology or service do you seek suppliers for?
Ireland	DesignPro Automation	<a href="https://designproautomation.com">https://designproautomation.com</a>	DesignPro Automation is an award winning automation company that consists of a multiskilled team of design engineers and precision automation specialists with a passion for creating technically advanced solutions. Based in Limerick, Ireland we are an Irish owned company who pride ourselves on being at the forefront of technology and innovation in the automation industry. With an extensive range of inhouse departments, we offer one of the largest machine build facilities in Ireland. Since 2004, we have developed a reputation in the MedTech and Automotive sectors as a successful, dedicated and flexible automation partner to some of the world's leading medical device manufacturers. We provide a complete turnkey solution, which includes problem analysis, design, prototyping, build, validation, installation and post install support. See below embedded videos that showcases both our expertise and the facility in which we operate. Every machine you see in the below videos is custom designed, assembled, programmed, tested and delivered to our customers site to use in their manufacturing process.	Packaging sector (Automatic machines for packaging and equipment / packaging and containers)	At DesignPro we are an OEM machine builder, however our approach is to subcontract our specific stations/technologies of our manufacturing lines to individual technology companies who have the expertise in particular focus areas. For example, we have some current manufacturing line build projects that require automated packaging and automated bagging at the end of line and we are therefore interested to see if there are any suppliers in this area at Farete that we can partner with given that Automated Packaging is an area of expertise for exhibitors at this event
